### Work Completed on New Audio Suite at Royal National College for the Blind (RNCB), Hereford

Over the past 14 weeks we have been involved in a project with CJ Bayliss (Hereford) Ltd at the RNCB Hereford, converting 3 classrooms into a state of the art media suite and recording studio, providing power, lighting and audio installation. The project is now complete and due to start being used by the college and students in the next few weeks. This was our first project working with CJ Bayliss, and the feedback has been very positive. We look forward to working with them again in the future. Great work by all involved!

### First Aid at Work Training

All electrical staff recently completed a Level 3 Award in Emergency First Aid at Work course, here at Goodridge Head Office. Feedback was positive from all staff attending, with the course being described as “helpful”, “definitely worth doing”, “fun and interactive” and “so important”. It's good to know that all staff can take care of each other in the workplace as well as members of the public if necessary. Well done everyone!!

## Amy is made Electrical Supervisor

Congratulations to Amy Lister who was made Electrical Supervisor in October! She was also contacted, once more, by JTL who caught up with her and Steve to talk about her progression within the company. Amy was taken on as an apprentice in 2018 by Steve through JTL, a work based learning provider in the building services engineering sector. Speaking about her progression, Steve commented "I trust Amy. She knows the right way to do things and she's been with me from the start. All my quirks, tips and methods are now hers. How could I not trust her when I taught her exactly what to do?"

## National Security Inspectorate Accreditation

We are now accredited members of the National Security Inspectorate (NSI) for the design, installation and maintenance of electronic security systems for intruder alarms, CCTV and access control. Get in touch for all your security needs!

## Sponsorship of Warndon Tigers U9's Football Team

We are proud to announce our sponsorship of Warndon Villages FC Tigers, Under 9's football team!

Tim Stevens, one of our electrical apprentices, recently approached our MD, Stephen Goodridge, to ask if we would be interested in sponsoring the team kit for the season. Tim's son plays for the team and he also helps coach for them. We were happy to be involved. Doesn't the kit look fantastic?

## Hereford Hospital - Replacement Distribution Board

We were busy on Saturday 19th November, when 6 Goodridge electrical staff members completed a large, ongoing job for Hereford Hospital which had been 6 months in the planning. Our MD, Stephen Goodridge and Project Manager, Mark Winfield, designed the unit in our workshop and made the trunking specifically for this job. Two existing distribution boards were replaced by one large distribution unit to allow for future capacity to the Sodexo Hospital Support building. The team worked most of the day to complete the job, but the results were outstanding. Well done to everyone involved, a job to be proud of!

## Becky joins the Goodridge team

Becky Dick joined Nikki Hunt in the office as Part Time Office Administrator last month. She has joined us with a history of working in the reception and administrative field, having previously worked for West Mercia Police, Worcestershire County Council Education Department and in the hospitality sector. She will be covering marketing, social media and assisting Nikki with other administrative duties. Welcome to the team Becky!
